Day Program**

An integrated approach to helping adults  
and their families.

**Together we will make a difference!**

## A Message from the PSR Staff

The Psychosocial Rehabilitation program (PSR) at Amanda Luckett Murphy Hopewell Center is an approved program by Missouri Department of Mental Health. Our program is client focused and designed for individuals with different shades of mental illness. Our goal is to provide clients with:

- Independent Living Skills
- Basic Pre-employment Skills
- Psychosocial Education

We commit ourselves daily to encourage personal development and individual growth, and strive to provide a stress free environment. Our approach is holistic. We work not only with consumers, but their Case Workers, Legal Guardians, Psychiatrists, Family Members and Group Home's Staff as needed.

We welcome you to join the PSR Family!

## PROGRAM SERVICES

## PROCOVERY CIRCLE

The Procovery Circles are based on the power of Procovery in Healing Mental Illness: Just Start Anywhere by

Kathleen Crowley. The Circles offer a new vision of self-help and personal empowerment, where personal experience, culture, strengths are embraced, and where hope and skills for healing go hand in hand. © Kathleen Crowley 2000-2005.

The Procovery Circle of the PSR program at ALM Hopewell Center started about five years ago and is held weekly. There are two Circles, which are enthusiastically facilitated by Amanda Luckett Murphy PhD, former CEO/President, and Katherine George, former Hopewell Board Member.

Some of the members have been in the Circles since their inception into the PSR program, while others are fairly new. The members show excitement and willingness to share their stories and talk about the future. Some have become better readers, while others are continually striving to reach that goal. The Circles are hope centered and forward moving.

The Procovery philosophy fits into the overall Vision and Values of the center: to improve the quality of life for the mentally disabled by decreasing the incidence of mental disabilities and their negative impact through Hope Treatment and Wellness.
